

# Setting up the TRANSFLO NOW!® App

First download “TRANSFLO NOW!®” from either the **Apple iTunes App Store** or the **Google Android Market**. Open the App by tapping on it to start the setup process.

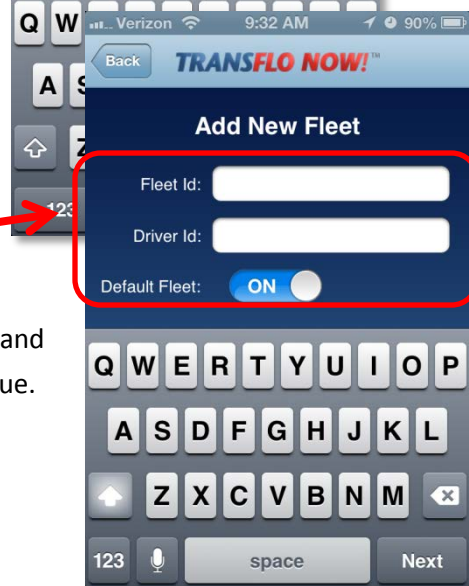

Next, TRANSFLO will ask to use your current location for geo-stamping your scanned bills. This is a common feature for most apps on both iPhone and Android phones. You can select to either **Allow** or **Don't Allow**. This will not affect your use of the app.

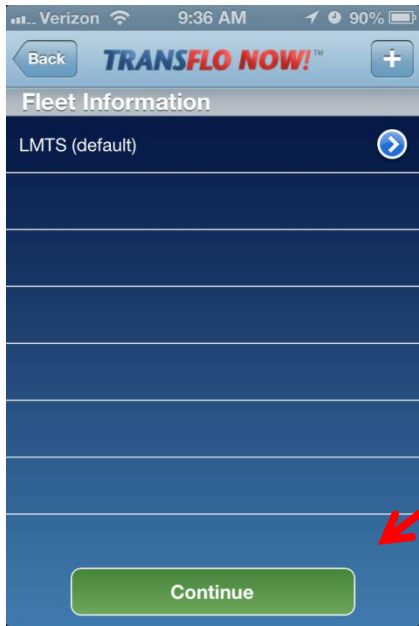

Read through the License Agreement and **press “Accept” with your finger in the top, right corner to continue**. This will take you to the main registration screen for the TRANSFLO NOW app. Press the **Green Button “Begin Registration”** with your finger to continue.

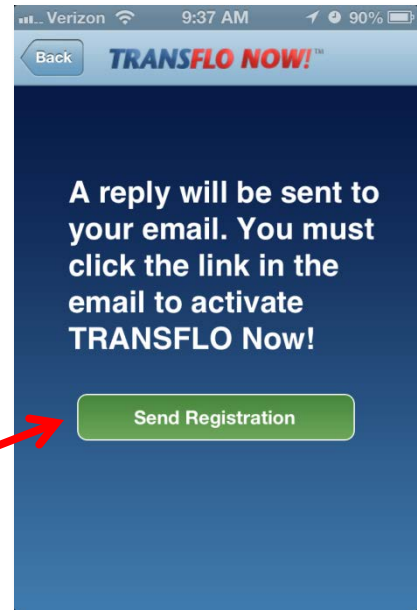

Next, enter your **email address, first and last name** and press **Next** to continue.

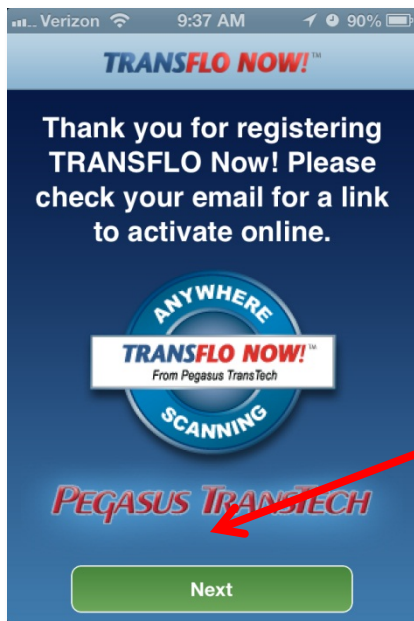

Next, enter our **Fleet ID for L&M Transportation Services (LMPV)**. Enter either you **MC# or DOT# for your Driver ID** and leave the Default Fleet selected as **ON**. Press **Next** to continue.

This will take you to your Fleet Information screen. You can have multiple Fleets that you send bills to in your TRANSFLO NOW app. You can edit Fleet information by pressing the blue arrow next to the Fleet Name with your finger and you can add more Fleets by pressing the plus button in the top, right corner with your finger. Press the **Green Button "Continue"** when you are ready.

**Next**, TRANSFLO will ask to verify your registration by sending you a confirmation email. Press the **Green Button "Send Registration"** to continue.

Check your email for the confirmation from TRANSFLO. Once it arrives, **click the link in the email to jump to the confirmation webpage for TRANSFLO**. You will see a message saying your TRANSFLO NOW App is now **Active**. Return to the App on your smart phone and **press the Green Button "Next"**.

A **"Quick Tips"** screen will pop up for you to reference any time while using the app. **Press Done** in the top, right corner with your finger.

This will take you to the **TRANSFLO NOW App main screen**. If your account is active, the **Status** will say **"Active"**. If you still need to confirm your account, your **Status** will say **"Pending"**.

You are now ready to use the App. Please see our **Scanning and Send Bills with the TRANSFLO NOW App** walkthrough next.
